Tooling with Hongyi JIG

Tooling is a specialized area of manufacturing engineering which involves analyzing, designing, construction, and application of tools, methods, and procedures necessary to increase manufacturing productivity. We believe in quality of tool design and that is enhanced through comprehensive internal inspections that are carried out to ensure maximum accuracy during the designing of tools. As one of the fields of expertise, Hongyi JIG designs tools that create impressive and user-friendly designs of a tool that gives instant success. It is a place where clients can experience hassle-free tool design.

Hongyi JIG provides manufacturing solutions in different domains of die molds like Injection molds, rubber compression and injection molds, Pressure die casting tools, sheet metal stamping tools, Bakelite injection molds, etc.

We constantly strive to bring the right cure on your face.

Hongyi JIG Rapid Technologies Co., Ltd.
Hongyi JIG Rapid Technologies Co., Ltd. and HONGYI (China) are a combined endeavor of HONGYI (China) and JIG (Jagdeep Industrial Graphics, INDIA) to facilitate and improve the product development companies using advanced technologies. Hongyi JIG has an international presence and in the past has worked for many globally recognized companies by using advanced technologies. Hongyi JIG has a presence in various countries ranging from Asia to Europe and North America, delivering quality products. Hongyi JIG has offices in Hong Kong, India, United Kingdom, Germany, and Canada. The company is dedicated to innovation, design, engineering, and production for various industries.

Hongyi JIG designs tools that are used in various industries and applications, including automotive, medical, consumer products, electronics, electrical appliances, and home appliances.

Hongyi JIG Rapid Technologies Co., Ltd. is a company that specializes in tooling and design services, providing solutions for various industries.

We constantly strive to bring the right cure on your face.
Tooling with Planning & Commitment

Hongyi JIG Rapid Technologies Co., Ltd.

Hongyi JIG Rapid Technologies Co., Ltd. is a trusted source for your plastic injection molding needs. Our professional team provides a comprehensive range of services, from initial design to final product delivery, ensuring your project is completed with the highest quality and efficiency.

Creative Design & Planning

Our experienced team will work closely with you to understand your project requirements and develop a detailed design plan. We use advanced software such as AutoCAD, Pro/E, UG, and Solid-works to ensure our designs meet the necessary standards and specifications.

Tool Design

Tool design involves creating the mold that will produce your part. Our engineers have expertise in selecting mold steel, designing the cavity layout, and creating the necessary draft angles for easy part release. We also incorporate cooling systems to ensure optimal temperature control during the injection process.

Prototype Molding

We offer prototype molding services to help you test your product before large-scale production. Our state-of-the-art equipment ensures consistent quality, allowing you to make necessary adjustments before committing to full-scale production.

Mold Assembly

Once the mold is complete, we assemble it with precision to ensure smooth operation. Our team ensures the mold meets all industry standards and quality requirements, ready for immediate use.

Rapid Turnaround

We understand the importance of meeting deadlines. Our fast turnaround time allows you to get your product to market quickly, giving you a competitive advantage.

High-Quality Output

Our commitment to quality is evident in our skilled labor force and advanced equipment. We guarantee high-quality output with every mold we create.

Competitive Pricing

We offer competitive pricing on all our services, allowing you to budget effectively while ensuring the highest level of quality.

Contact Us

To learn more about our services or to get a quote, please contact us at sales@hongyijig.com. We look forward to partnering with you on your next project.
